

# DT at home

Hello everyone, I hope you are all ok and keeping yourselves safe by staying at home. I can say that all of the teachers are missing you and we cannot wait to see your smiling faces when we return to school.

This week I have created a DT project for all of you to complete at home with your parents, siblings or by yourselves. Please make sure you read the instructions for your year group properly and not only create the 3D DT project but the written task also. If you do not have your learning journal at home or have already finished it, you can do the written task on Word, on a piece of paper or even through Purple mash on the app '2Publish'. Keep your projects and written task safe until we see each other again.

You might want to ask your parents to take photos of you doing your projects or you could draw a pictures, so you can show us what you have been up to when we return to school. I have also included some ideas for materials and pictures for inspiration.

Keep safe, stay at home and I will see you soon☺.

From

Miss Pinto ☺
